### SAP Concur 🖸

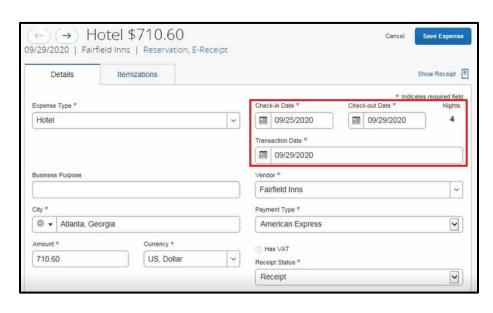

A hotel bill typically contains a variety of expenses including room fees, taxes, parking, meals, valet, telephone charges, and personal items. You must itemize these expenses so that your company can correctly account for all expenditures.

In the lodging expense report, Concur Expense populates the **Check-out Date** and the **Nights** based on the **Transaction Date** and the **Check-in Date**.

In the following steps, you will see how to enter all your itemizations.

1. Select the **Itemizations** tab.

Note that when you are itemizing a hotel bill from a foreign country, the amounts that you enter are in that foreign currency. After itemizing all of your charges, you might have a small remaining amount.

If this is the case, you must create a single itemization for the remaining amount before you can submit your report.
