

BOARD OF DIRECTORS

Student Representatives to the Board of Directors

The Board of Directors recognizes the value of student representation on the Board so that student voice and input is included in the Board's work. The school district will annually seat two student representatives: one representative and one representative-elect. Student representatives will communicate with other district students and receive their input and perspectives.

Student representatives on the Board are expected to attend all Board meetings. The student members will contribute to Board discussion by providing student insight and perspective, serving as a liaison with other established student groups, and reporting to students about the work of the Board and district activities.

Student representatives will not attend executive sessions or hold board offices. The student representative seated on the dais will be given the option to provide the Board with advisory votes on agenda items as follows: immediately before the Board votes on an agenda item, the student representative will be asked to provide the advisory vote – whether pro, con, or abstain.
