

Hello!

Please join the Georgia Center for Child Advocacy for a screening of Paper Tigers on February 25, 2021 10:00am – 12:30pm. See the attached flyer.

This film follows a year in the life of Lincoln Alternative High School. Paper Tigers captures the pain, the danger, the beauty, and the hopes of struggling teens— and the teachers armed with new science and fresh approaches that are changing their lives for the better. Lincoln Alternative High School has radically changed its approach to disciplining its students after the principal learned about the Adverse Childhood Experiences Study.

At the conclusion of the film there will be a moderated panel discussion. We look forward to hearing from:

- Maureen McFadden from Gateway Community Service Board
- Maria Andrade with All Bodies Can Breathe, a chapter of On the [Samebreath.org](https://www.samebreath.org/)
- Joni McElwaney, a Lumpkin County Schools Social Worker

Following the screening and panel discussion, we hope participants will be inspired to take action on behalf of children, their families and the communities in which they live.

Join Zoom Meeting

<https://zoom.us/j/92402716003>

Meeting ID: 924 0271 6003

All are welcome to attend; however much of the discussion will be focused on trauma-informed practices in a school setting. Also, please be advised that this film contains mature themes and strong language. For questions or more information, [email prevention@gacfa.org](mailto:prevention@gacfa.org).

Best,

The Georgia Center for Child Advocacy Prevention Team
