

Computer-based SAT, ACT, and PSAT Practice Tests

Help your students prepare from home or school

Applerouth is now offering computer-based practice SAT, ACT and PSAT tests as a solution for schools!

How do computer-based practice tests work?

- You select custom test dates that work for your school.
- Students take the test at school or from the safety of home, without paper or bubble sheets. Internet connection is required.
- Applerouth handles registration, proctoring, grading, and comprehensive score reporting - no shipping of paper tests!
- Your students get the practice they need, and you get detailed score data, all in one safe and easy-to-implement solution.

**Contact us today to learn more or set up
custom dates for your school.**

A Practice Testing Solution for Now *and* the Future

Future SAT and ACT tests will be fully online. Applerouth's practice tests use the same platform as the College Board and ACT, Inc. **This is the future of testing, and your students will be ready.**

"Computer-based testing with Applerouth went incredibly smoothly! So smooth let's talk about doing this for underclassmen next year!! Applerouth for the WIN :)"
