

October 2023

This year, to support our schoolwide theme- **Rep Pump Kindness is out of this World**, we will have a yearlong service project. We will be collecting pull-tabs from soda, soup, and food cans for the **Ronald McDonald House**. You can collect these from your family, relatives, and community. The Ronald McDonald House recycles these tabs and uses the money to purchase gas for their shuttles to take families to and from area hospitals. Besides benefiting the families of RMH, collecting tabs for recycling is an environmentally friendly practice as well! There will be a labeled box in the lobby for drop off all year.

Our service project for October will benefit **Harford Family House** and **Welcome One Emergency Shelter**. We are collecting supplies to help stock their shelves. Harford Family House is leading the fight to end homelessness in Harford County. We will be collecting the following items:

- \*Cling wrap
- \*Aluminum foil
- \*Tissues
- \*Q-tips
- \*Paper Towels
- \*Toilet Paper
- \*Plastic Forks
- \*8 oz. paper hot cups
- \* 10 oz. plastic cold cups

**There will be drop off boxes in the front lobby and we will collect items until Nov. 3, 2023.**

*Thank you for your participation!*
