

Plastic Bag Trex Recycling Challenge

Red Pump Elementary School is once again participating in the Trex Recycling Challenge! **All plastic** must be clean, dry and free of food residue. *These bags **cannot** be recycled with our local recycling curbside process and end up in the landfill. *

Send in your plastic with your student or drop off in the labeled box in the school lobby. Bags are weighed and taken to a local drop-off location. Schools that recycle 1,000 pounds in a 12-month period receive a Trex bench made from 100% recycled plastic bags!

We need your help to continue this fabulous program! We are looking for 2-4 volunteers to help drop off the bags at various retailers. Volunteers will pick up weighed bags from school and email a **photo** of the bags being dropped off to document for Trex. Giant and Safeway are our favorite places.

(Email Sharon.boyle@hcps.org)

*If your home collection is large, please drop off *directly* at the retail location of your choice. Remember to send a photo/ approximate weight to Mrs. Boyle.

MARYLAND Drop-off Locations

Food Lion

Giant

Goodwill

Harris Teeter

Kohl's

Redner's Markets

Safeway

Sprouts Farmers Market

Weis

NextTrex®

Trex is challenging schools to collect 1,000 lbs. of plastic this year! Schools that meet this challenge will receive a bench made from 100% plastic bags!
