CVUSD Information Letter Regarding Math 6CP to 7A Boost Exam & Camp

Dear Parent/Guardian,

All current, 6th grade CVUSD students, who are taking Math 6CP, and interested in taking the Math 7 Accelerated (7A) class, are eligible to take the **Boost Exam**, and all 6th grade CVUSD students, who are taking Math 6CP and qualify (see qualifications below,) are eligible to participate in the **Math 6CP to Math 7A Boost Camp**.

The CVUSD Math Flow Chart (Grades 5-9), displayed on the back of this letter and located on our District website at <https://www.conejousd.org/cms/lib/CA50010930/Centricity/Domain/90/Math%20Pathways%20-%20Updated%203.07.2023.pdf>, delineates the CVUSD Math Pathway for the 2024-2025 school year. These state standard pathways do not allow students to go from Math 6CP to Math 7 Accelerated (Math 7A) directly. **In order to advance from Math 6CP to Math 7A, students must complete the Math 6CP to 7A Boost Exam with a score of 70% or higher.** If eligible, students taking the Boost Camp must pass the administered Boost Exam at the end of Boost Camp with a **70% or higher**, or receive an **overall Boost Camp grade of 80% (including Boost exam)**.

Boost Exam:

- **Eligibility:** All students taking Math 6CP can take the **Math 6CP to 7A Boost Exam**.
- **Description:** Students seeking to boost from **Math 6CP to Math 7A** will be skipping **half a year** of the 7th Grade Math Standards. The District's boost exam will test those concepts and standards from the first half of the Math 7CP course. Study guides covering this material are available for students to study prior to the exam dates. Students who wish to take the Boost Exam must register at the link below.
- **Registration:** Any student can register at this link (<http://bit.ly/CVMathPlacement>) for the **Math 6CP to Math 7A Boost Exam**. The Boost Exams will take place on Monday, June 17th at Madrona Elementary School (612 Camino Manzanitas, Thousand Oaks) or Tuesday, July 30th at Sequoia Middle School (2855 Borchard Rd., Newbury Park). **Each student can only take 1 exam per year.** Both exams have limited space, so please register early to secure your spot. **Registration must be completed by May 17, 2024.**
- **Required Score:** The prerequisite for students to move from **Math 6CP to Math 7A** is passing the Boost Exam with a **70% score or higher**.

Boost Camp:

- **Eligibility:** Students currently taking Math 6CP who earned A's or B's in Semester 1 marking period can participate in the district's Boost Camp. A student who takes Boost Camp still must pass the **Math 6CP to Math 7A Boost Exam** with a **70% or higher** to be placed into Math 7A, or receive an **overall Boost Camp grade of 80% (including Boost exam)**. Space is limited. However, families of students who do not qualify based on the above criteria can request to participate in Boost Camp by completing this [request form](#) if your child is not eligible.
- **Description:** Boost Camp is a cost-free in-person summer school opportunity from July 1 to July 30, 2024 (July 4 & 5 off) from 8:30 a.m. to 11:00 a.m. to gain the additional skills necessary for Math 7A. Students must take the Boost Exam on **Tuesday, July 30th at Sequoia Middle School (2855 Borchard Rd, Newbury Park)**
- **Registration:** Eligible students must register at this link (<http://bit.ly/CVMathPlacement>) for the **Math 6CP to 7A Boost Camp**. These students will take the Boost Exam on **Tuesday, July 30th at Sequoia Middle School (2855 Borchard Rd, Newbury Park)** as the final exam for the course. **Registration must be completed by May 17, 2024.**
- **Required Score:** If a student receives an 80% in the course (which includes the Boost exam), the student is considered to have "passed" Boost Camp and may accelerate to Math 7A. If a student does not receive 80% or more in the course, the student must pass the corresponding Boost exam with a score of at least 70%.

If you have any questions or need further information, please contact the assistant principal at your child's middle school.

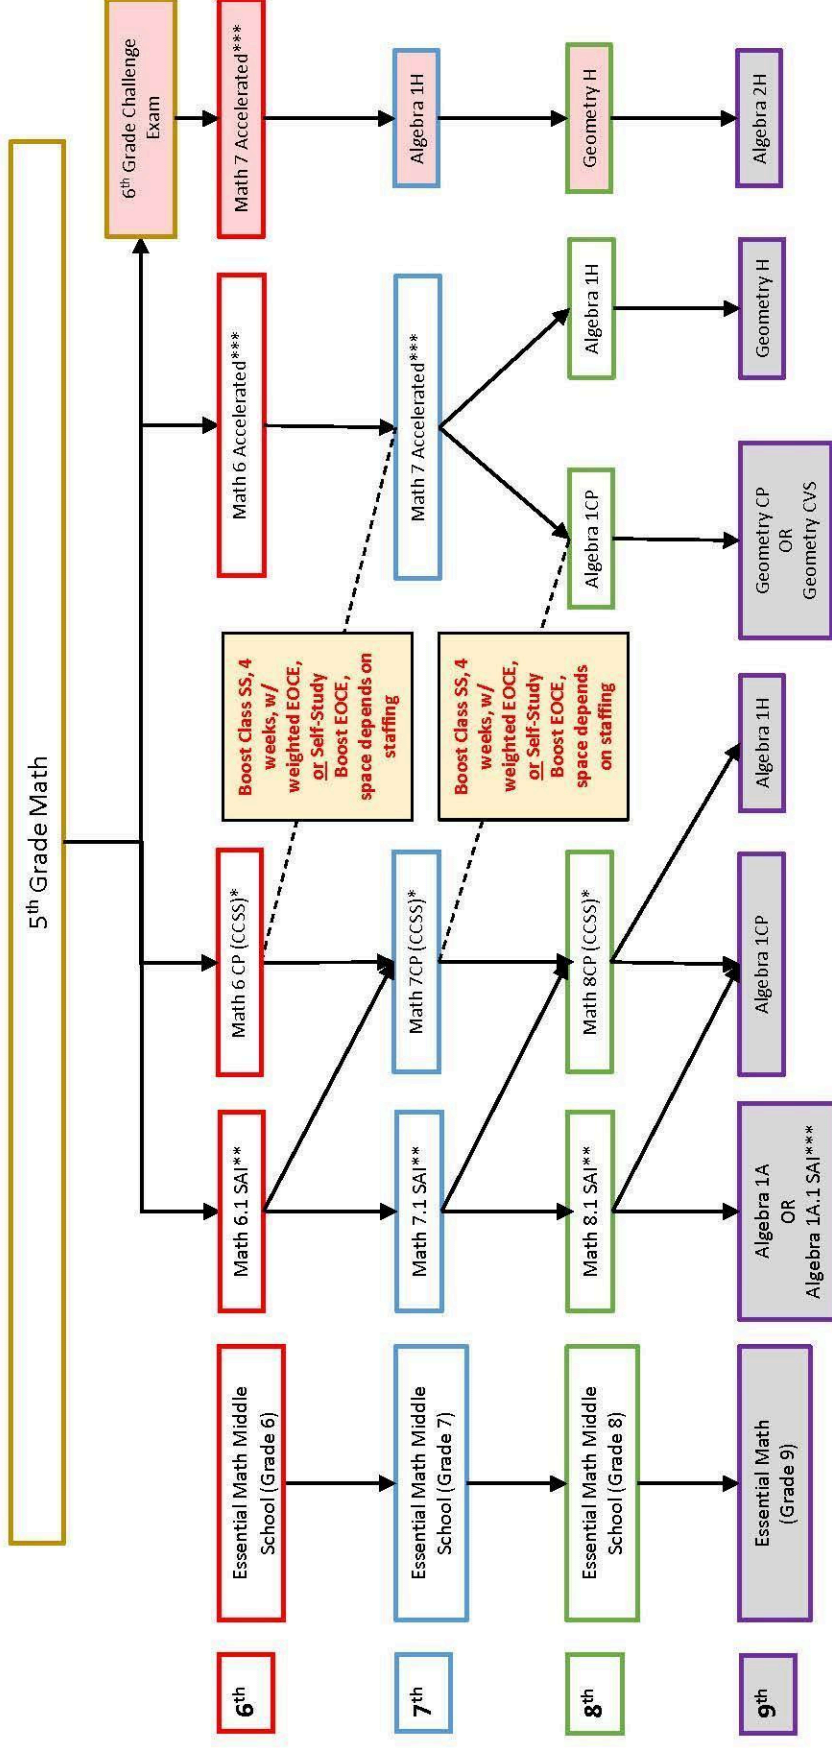

Sincerely,

Kenny Loo

Math Flow Chart Grades 5-9

*CCSS denotes courses aligned to the CA Common Core State Standards

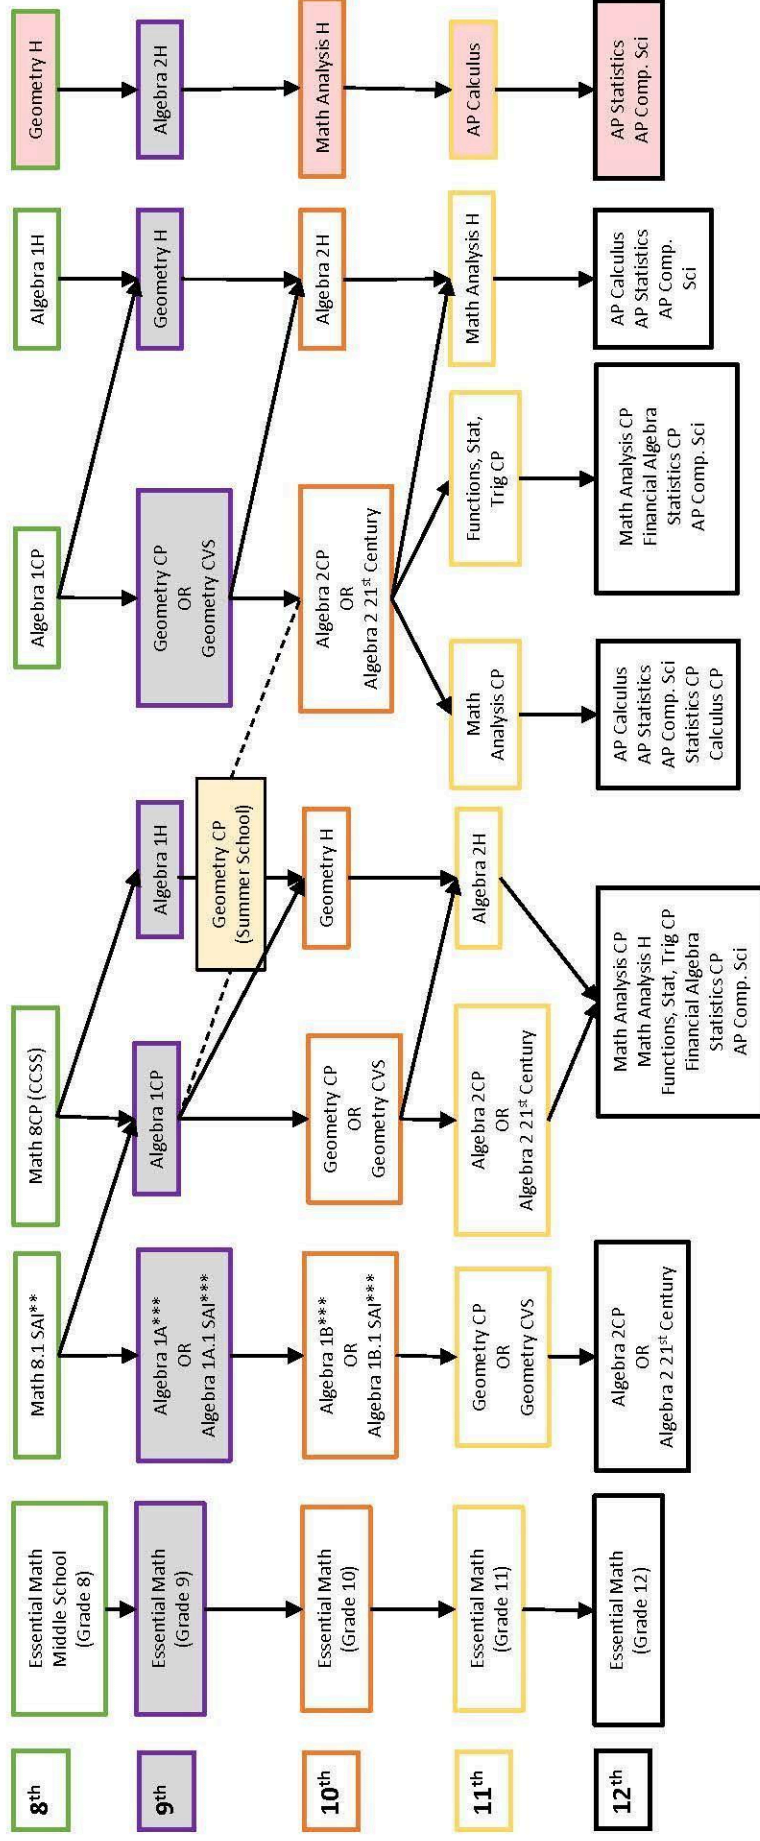

**SAI denotes courses that are considered Specialized Academic Instruction. Placement in SAI courses is determined by a student's IEP team.

***Math 6 Accelerated / Math 7 Accelerated are courses that each include instruction in 1.5 years of CA Common Core State Standards.

This flow chart is designed to guide students along common academic pathways. The paths shown are typical routes taken by students. Transferring between paths is possible from year to year based on student performance, teacher recommendation and counselor review. In our school district we strongly believe four (4) years of high school math is a good predictor of success in college.

Conejo Valley Unified School District

Math Flow Chart Grades 8-12

All courses listed are UC A-G approved

*CCSS denotes courses aligned to the CA Common Core State Standards

**SAI denotes courses that are considered Specialized Academic Instruction. Placement in SAI courses is determined by a student's IEP team.

***The Algebra 1A/Algebra 1B and Algebra 1A.1/Algebra 1B.1 sequences count as 1 year of college prep mathematics for the purposes of UC A-G approval.
