### Suggested newsletter copy

We invite area high school Biology, Chemistry, Math and English teachers to the VSU campus on March 17-18, 2023, for the Laying the Foundation training by the National Math and Science Initiative.

Led by expert educators, Laying the Foundation is a vertically-aligned and content-specific professional development program designed to support any curriculum structure. The program provides educators with the resources to authentically implement curriculum and develop advanced levels of thinking and learning for their students.

The purpose of the National Math and Science Initiative is to advance STEM education to ensure all students, especially those furthest from opportunity, thrive and reach their highest potential as problem solvers and lifelong learners who pursue their passions and tackle the world's toughest challenges.

For more information and to register for the March event, visit this [link](#) or email [Jennaye Brown](mailto:Jennaye.Brown).

### Suggested social copy *prior* to the March event:

(*General*)

Unlike many traditional professional development programs for educators, @NMSI's Laying the Foundation training is flexible, adaptable, and enriching. Read how you can experience it yourself in March 2023 at @VSUCOE: <https://www.nms.org/NMSI/media/Media/Documents/One-Pagers/LTF-Training-VSU-Partners.pdf>

[@NMSI's](#) Laying the Foundation is coming to @VSUCOE. We invite high school teachers of Biology, Chemistry, Math and English to join us March 17-18, 2023, for this special event. Details here: <https://www.nms.org/NMSI/media/Media/Documents/One-Pagers/LTF-Training-VSU-Partners.pdf>

NATIONAL  
MATH + SCIENCE  
INITIATIVE

Want to take your classroom instruction to the next level? Register now for Laying the Foundation training by @NMSI, happening in March 2023 at the VSU Campus. Read more about the event here:
