

INVEST IN THE

***SQUIRREL PARK
EXPANSION
PROJECT***

**PURDUE
UNIVERSITY®**

THE PROJECT

At the corner of State Street and Airport Road lies an opportunity to increase the sense of community on campus. Located at a crossroads between business, research, and residential zones within the Discovery Park District at Purdue, Squirrel Park is envisioned to be a place where the residents and Purdue community can enjoy time outdoors together.

This centrally located park will be enhanced with recreational areas, pedestrian pathways, agricultural spaces, and more. Your support of this expansion will make many of the planned projects possible and enrich the environment while creating a space for relaxation and socialization for the families that live there.

FEATURES INCLUDE:

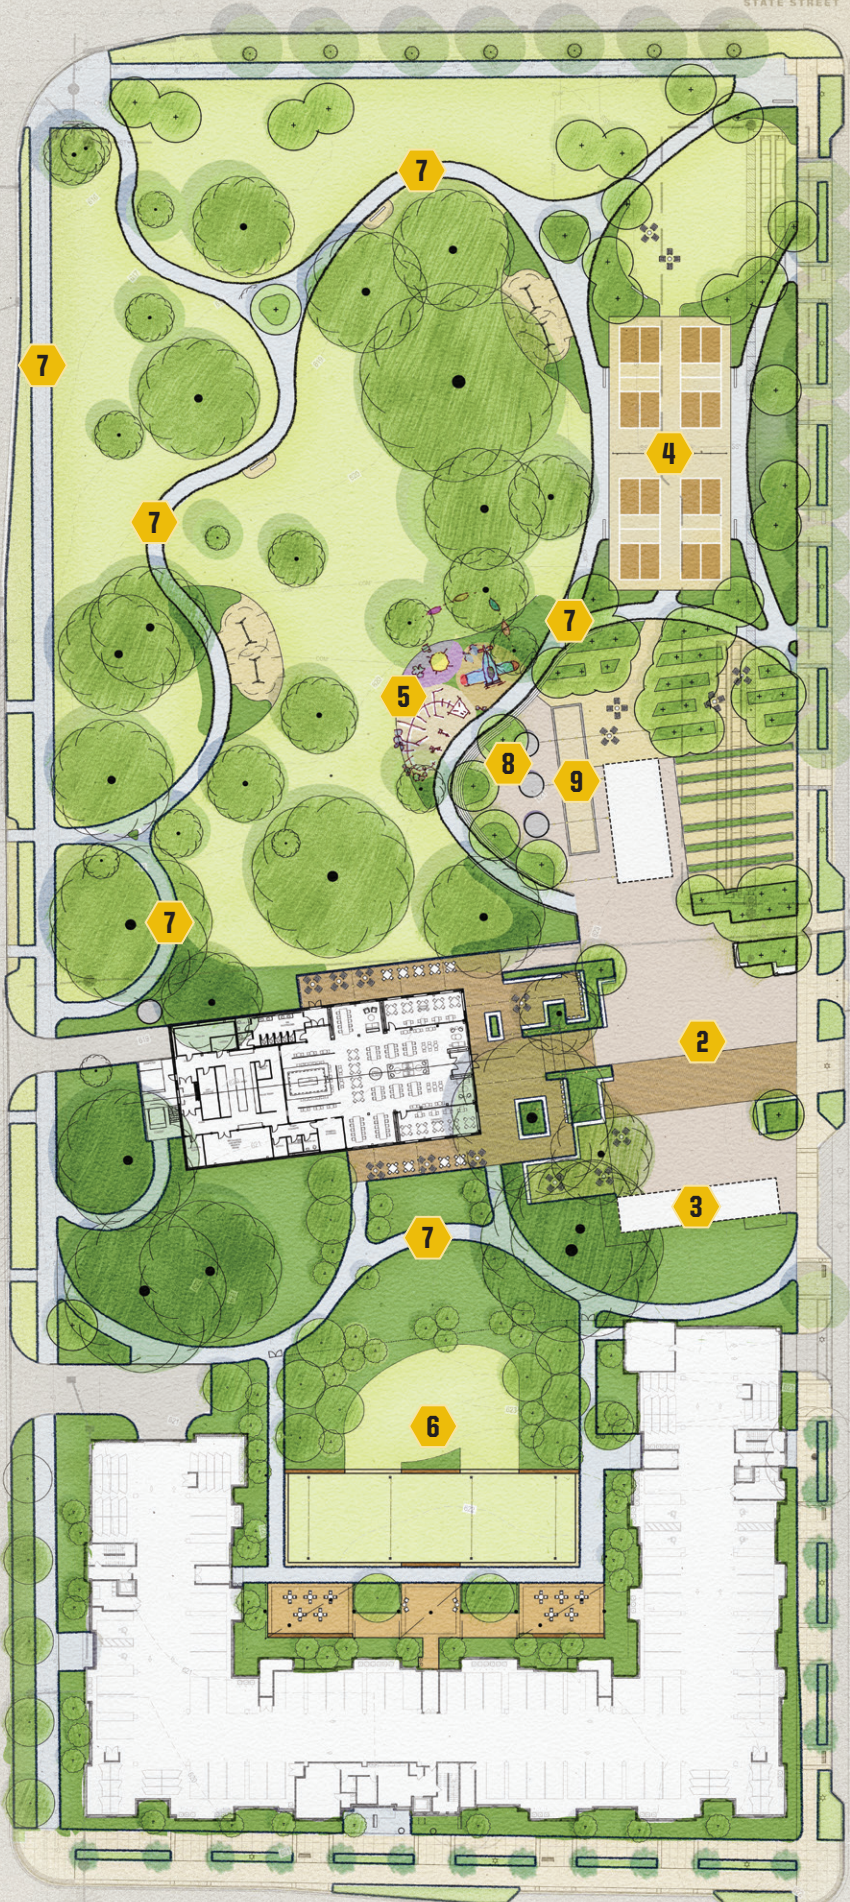

- // A beautiful park lawn divided by paved pathways that lead to bench seating and park swings
- // A 1938 horse barn repurposed as an event venue and potential brewery, donated by the Sonny Beck Family
- // Green spaces with raised planter beds
- // A children's play area
- // Two gathering silos
- // A bocce ball court
- // Four pickleball courts
- // A raised terrace offering outdoor dining under a tree canopy and string lights
- // A plaza complete with plant beds, bench seating, and a pavilion

Your support will make these incredible campus amenities a reality.

This project offers you several options to sponsor a space in your name or in honor of a loved one. Beautiful plaques and signage will honor those who contribute to the beautification and enhancement of the Discovery Park District.

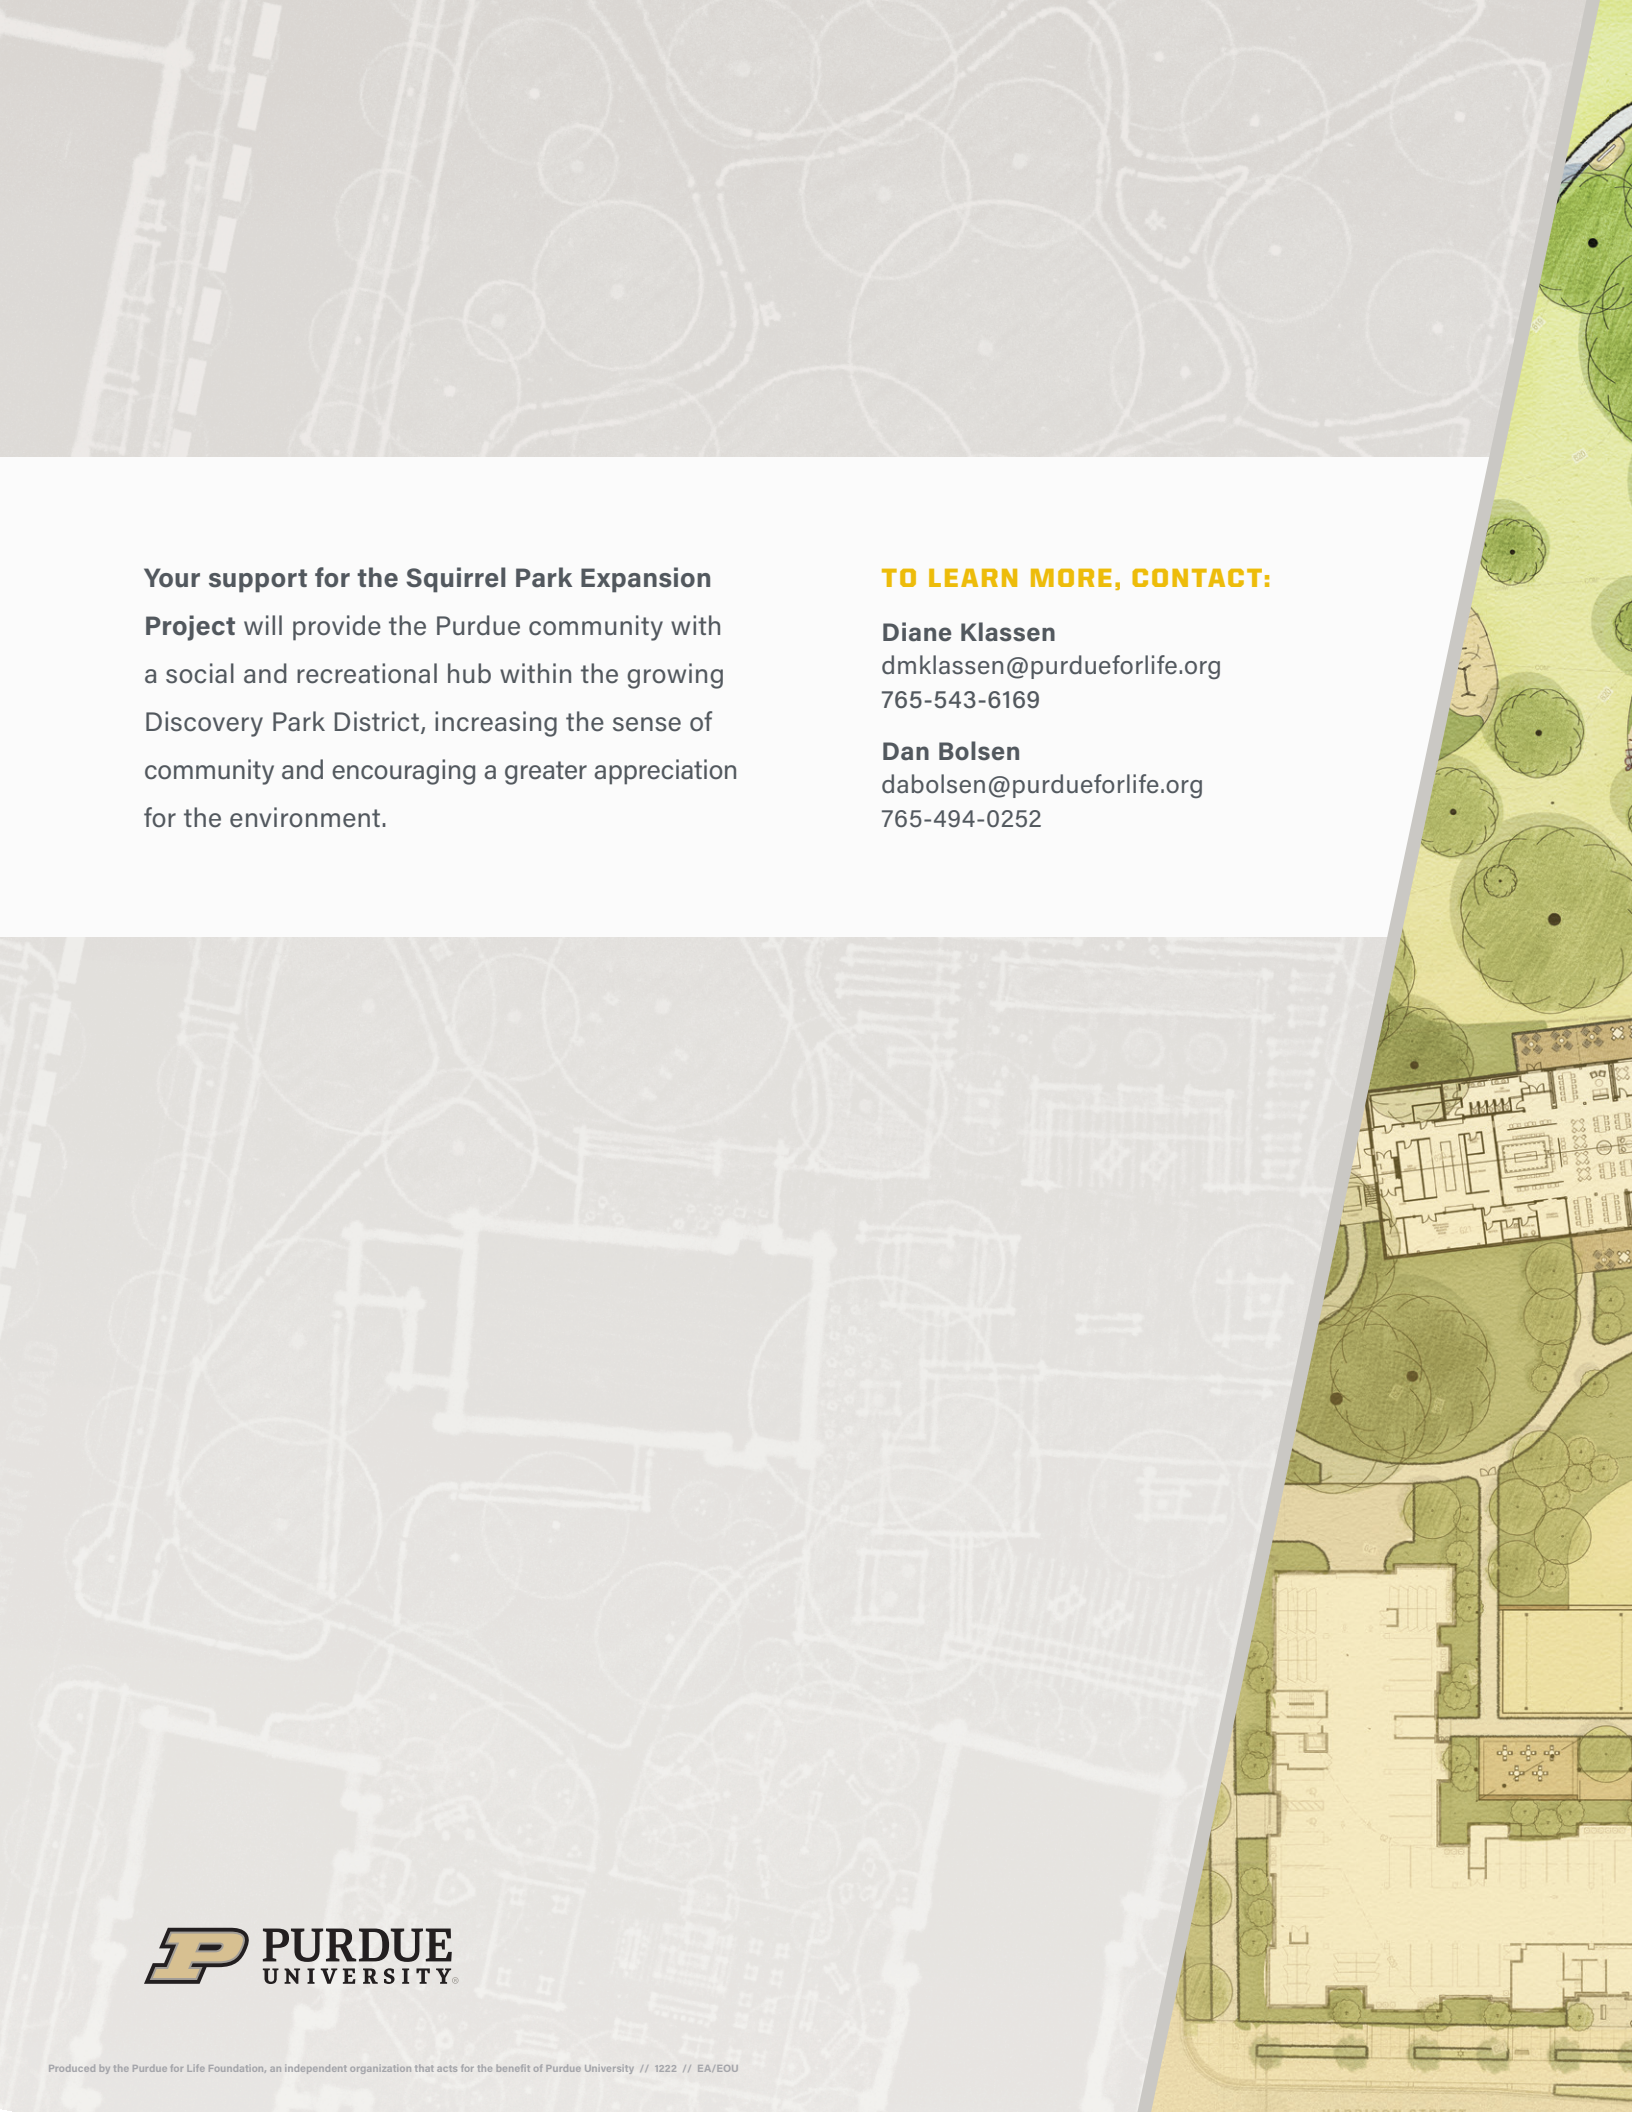

1 PARK NAME

NAMING OPPORTUNITIES

- 1** PARK
\$2,500,000
- 2** ACTIVATION PLAZA
\$500,000
